Previously Vice Chair

Previously, NHS Consultant in Pain Medicine

The Royal Free Hospital London NHS Trust
January 1997 - August 2017

Appointed

Honorary Fellow of the Royal College of Physicians
In recognition of my contribution to Pain Medicine 2005

Dr Anthony Ordman

Expert Medicolegal Witness

As a senior, full-time specialist in Pain Medicine, I have been invited to prepare expert witness reports for the Court, on many occasions, and have gladly done so. Cases, so far some 20 in number, were predominantly for the claimant's side in personal injury cases, and I am now also taking on some cases involving allegations of medical and surgical negligence. My reports were all well-received, contributing to cases to be settled out of court.

I have attended courses on Medicolegal Report Writing at the British Medical Association and The Royal Society of Medicine, and many several of Dr Rajesh Munglani's Cambridge Annual Medicolegal Courses.

Now retired from the NHS, I remain active in private clinical Pain Management practice, and able to devote more time to my medicolegal work. I will be happy to take new referrals and am available to discuss these on 07879 818 918.

Current Professional Activities

Consultant in Pain Medicine

Private Medical Practice at The Wellington Hospital, London, and The Royal Free London Private Patients Unit. I see and treat patients with acute pain and long-term and complex pain problems.

Medical Lead of the **Wellington Hospital Pain Improvement and Functional Restoration Programme (Pain FRP)**, a multidisciplinary program for the treatment and rehabilitation of those with long-term pain after illness, surgery, personal injuries, and so on.

Previously **Chair of the Wellington Pain Management Consultants' Group**.

Medical Director Integro medical Clinics Ltd

Developing a clinical team and clinical governance framework for this new, CQC registered clinic specialising in the use of novel substances for the relief of long-term pain and some psychiatric conditions. Seeing and treating patients since October 2020.

Committees

Royal Free Drug & Therapeutics Committee, Royal Free Hospital

I sit on the committee, having been the committee's **Vice Chairman** for 18 years.

The assessment of new treatments, guidelines and protocols for the whole trust has kept me up to date, not only in terms of pharmacology and clinical science, but also in areas such as clinical governance and regulation.

Past President of the Royal Society of Medicine's Pain Medicine Section, where I continue to contribute to the business of the section. I organise academic meetings at the RSM, and speak on some of them.

British Association for Performing Arts Medicine Medical and MSK Committees

Medical Advisor

Medical Advisor to The Royal Society of Musicians, Britain's oldest charity for musicians.

Clinician and Advisor for BAPAM, The British Association for Performing Arts Medicine. Medical Assessor, Advisor, and Medical Committee member.

Member of the Medical Advisory Board of the CSF Leak Association, an expert patients' group.

Previous Consultant Appointment in Pain Medicine

January 1997 - August 2017:

Consultant in Pain Medicine

The Royal Free Hospital, London, and

from 2007:

Honorary Senior Lecturer in Pain Medicine

UCL Medical School, University of London,

I created and developed the Royal Free's Pain Management Service as an integrated, multidisciplinary team of doctors, senior nurses, physiotherapists, clinical psychologists and psychotherapists. Growing the service over time, with further medical consultants and trainees, and administrative staff, we provided both an inpatient acute pain service, and an outpatient Chronic Pain Clinic. I became a full-time consultant in Pain Medicine.

For many years now, the Royal Free Pain Management Service has had an excellent reputation, both locally and further afield.

I enjoyed serving as a committee member in the annual interviews for undergraduate applicants for UCL Medical School entrance, and acted as examiner for various undergraduate examinations leading to MB BS.

Teaching and Training - Honorary Senior Lecturer

I was appointed an Honorary Senior Lecturer of UCL in May 2007, principally for my teaching work. I was the RFH Local Educational Advisor in Pain Management for the Committee on Advanced Pain Training for the London Anaesthesia Deanery, and its successor body.

RFH Drug and Therapeutics Committee - Vice Chair

I was Vice Chairman of the trust's Drug and Therapeutics Committee for most of my time at the Royal Free.

In recognition of my contribution to Pain Medicine, in 2005, I was appointed Fellow of the Royal College of Physicians of England under RCP's Bye-Law 39(b) ,

Previously Consultant Anaesthetist

May 1992 -

Consultant in Anaesthetics, The Royal London Hospital

December 1996 later:

Bart's and The London: The Royal Hospitals Trust

I gave anaesthetics for a variety of surgical specialities including neurosurgery.

I was Lead Clinician in Anaesthetic Audit for The Royal Hospitals Trust, and served on the Royal Hospitals Trust's Working Party on Consent for Treatment. I wrote the Antiemetic Prescribing Policy for the Royal London Hospital.

My specialist interest in acute and chronic pain medicine developed during this time, and I moved to The Royal Free Hospital to pursue this interest.

General Professional Information
